

Connecting Personally-owned Laptops to the NISD WiFi

NOTE: NISD WiFi is intended for use with *personally-owned laptop computers*. Instructions may vary depending on the wireless card and drivers on your laptop. *You will not have access to network drives and printers if you connect to the NISD WiFi on a District-owned laptop. Use of the NISD WiFi is filtered with the student Internet filtering policy.*
****If you connected your laptop to the NISD WiFi prior to August 17, 2009 you need to remove the NISD WiFi profile and create a new one.****

1. Right-click on the *Wireless Connection* icon in the System Tray and select **VIEW AVAILABLE WIRELESS NETWORKS**.
2. From the list of wireless connections available, select **NISD-WiFi**.

3. Click **CONNECT**.
4. In the *Wireless Network Connection* window type the network key twice and click **CONNECT**.

The network key is **northside** (all lower-case letters)

5. You will see the message *Acquiring network address* next to **NISD-WiFi**.
6. Once connected, you will see *Connected* next to the wireless connection.

7. Launch a browser.
8. At the *Portal* login screen:

NISD Employees: enter your network login information for **USERNAME** and **PASSWORD**

NISD Guests: obtain the guest login information from the campus CIT, librarian, or NISD host.

9. Click **Log In**.
10. You will be redirected to your homepage. You are now connected to the NISD WiFi.
